25th YEAR

In this issue:

- Revised game schedule
- A date for the 25 Year Dinner
- Some reminders about the rules

BASA Bulletin 2

Winter 2007

This is the second BASA Bulletin, and is primarily to provide players with a hard copy of the game schedule for the season. This schedule may change as the season evolves, so please check the web-site. There is also some important information to assist with planning, and the smooth running of the schedule.

Your help is needed!

In order to run four games in a night, all games need to start on time. This means that we all need to make an effort to ensure that teams get onto the ice, and are ready to play as soon as possible. When a referee is ready, the clock will start at 21 minutes, and be allowed to run, giving teams 1 minute to take their position on the ice. Please be prompt!

Contact vs Checking

The Mens contact game is a checking game, and the rules are the same as played by Women and Men at the National and International level. This is not to be confused with contact. Our mixed competition is a non-checking game, but the rules **do** allow incidental contact. If you want clarification on this rule, talk to the referee in chief, or a committee member. A full list of local rules is being developed by the technical committee, and will be published.

Got something to say? There will be a mid-season delegates meeting that will include captains plus one delegate from each team to discuss issues during the season, and plan for the end of season. Details will follow.

On line Shop is Open all Hours! Check out the online shop at www.BASA.org.au. There is a wide range of clothes, that are delivered reliably, and the G-strings will fit any size!

Birthday Party Date Set

The date for the 25th year birthday celebration has been set for **Saturday October 20th 2007**. The celebration will not only include an opportunity to meet past players, but will also be the presentation ceremony for this season. The venue is yet to be announced, but for more info, or if you want to assist with the preparations, see Ben Ziesing.
